MOD funding opportunities for the Space community

Dr Debra Carr

DASA Innovation Partner – Scotland

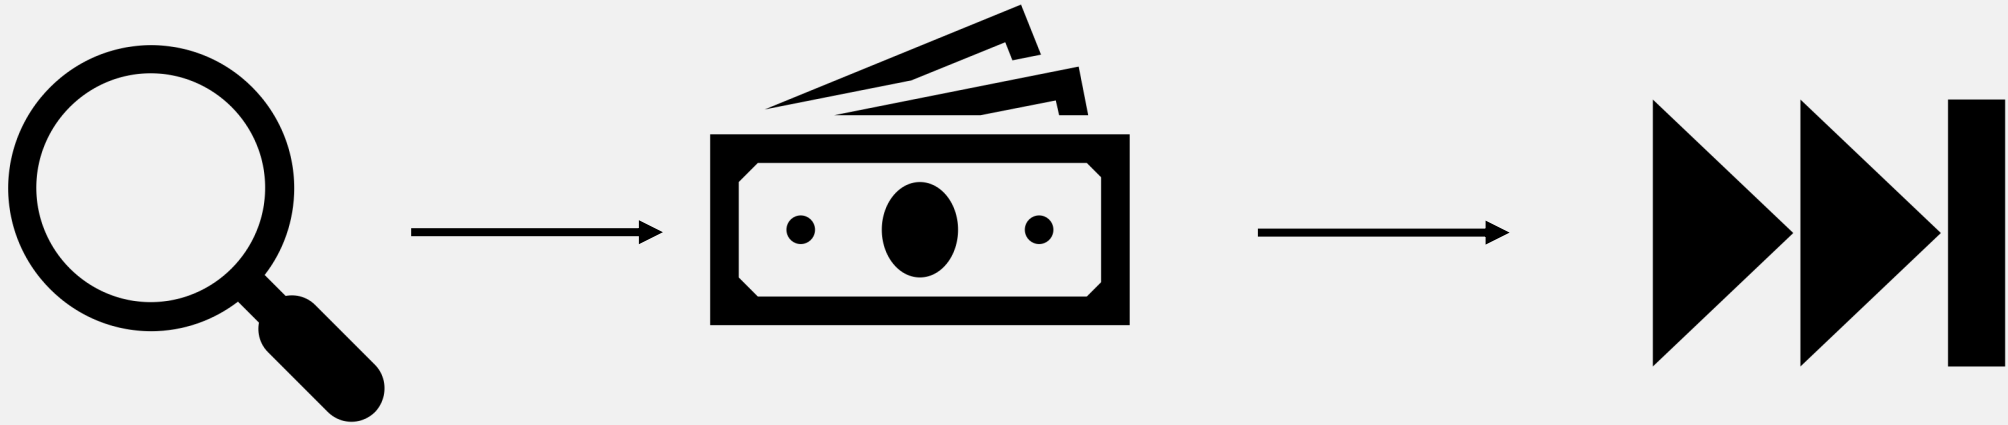

[dj carr@dasa.mod.gov.uk](mailto:djcarr@dasa.mod.gov.uk)

<https://www.gov.uk/dasa>

Our aim

DASA **finds, funds** and **fast-tracks** innovative ideas to benefit the Armed Forces and national security while supporting UK prosperity

Why apply?

- anyone can apply (businesses and academia)
- no partners required
- 100% FEC funding
- intellectual property and equity stays with you
- simple application and assessment processes
- locally based POC

Space focused DASA Themed Competitions

‘Space to Innovate’ (dstl, others)

- alpha: visualisation tools, characterising objects (2021)
- bravo: novel sensing, improving signal-to-noise performance (2021)
- charlie: fine resolution ISR data; alert, protect and defence satellites; satellite and ground segment technologies (2023)
- delta: TBC, likely launch next FY

DASA Open Call – space projects

- FY24/25, 4-cycles, midday 14 May
- aligned to the Defence Space Strategy (2022) themes:
 - Protect and defend
 - Enhance military operations
 - Upskill and cohere
- complete at TRL6 in a maximum of 24-months
- no funding limit (<£250k)
- optional EOI

Other MOD funding

- [R-Cloud](#) - Defence science and technology research
- [SERAPIS](#) - Defence and Security science and technology R&D. Lot 2:
Space Systems
- [ASTRID](#) - Analysis for Science and Technology Research in Defence
- [Defence Sourcing Portal](#) - contract and tendering opportunities

- see links for registration details
